Research Interests

My main research interest is *to develop novel interface and interaction techniques* to enrich the human-computer interaction. My projects have investigated how other modalities such as force or hover can change the touch interaction, how we can fully utilize the touch gesture, and development of new sensing techniques. I am also interested in *making the interface more natural through haptic feedback* techniques. My other research interests include *tangible interfaces and mobile/wearable interaction*.

Education

- Present **Ph.D. in Human-Computer Interaction**
School of Computer Science, **KAIST**, Daejeon, South Korea.
Advisor: Geehyuk Lee
- Aug 2009 **M. Sc. In Digital Media**
KAIST, Daejeon, South Korea.
Advisor: Minsoo Hahn
- Feb 2007 **B. S. in Electric and Electronic Engineering**
Sungkyunkwan University, Suwon, South Korea.
- Feb 2007 **B. S. Computer Engineering (Double major)**
Sungkyunkwan University, Suwon, South Korea.

Professional Experience

- Jan – Apr 2016 **Autodesk Research, Toronto, Canada**
Research Intern supervised by Tovi Grossman
Developing interaction techniques for wearable devices
- May – Aug 2015 **Microsoft Research, Redmond, USA**
Research Intern supervised by Ken Hinckley
Developing interaction techniques for mobile devices
- Jun – Aug 2008 **Samsung Advanced Institution of Technology (SAIT), Suwon, South Korea**
Research Intern at Multi-modal Interaction Lab
Designing multi-modal interaction techniques for consumer electronics
- Aug 2005– Feb 2006 **AhnLab, Seoul, South Korea**
Software Engineering Intern
Testing personal security software

- d.1 Sangwon Choi, Jaehyun Han, Sunjun Kim, **Seongkook Heo**, and Geehyuk Lee.
ThickPad: A Hover-tracking Touchpad for a Laptop, *UIST '11 Demo*
- p.4 **Seongkook Heo** and Geehyuk Lee.
Force gestures: Augmented Touch Screen Gestures using Normal and Tangential Force, *CHI '11 Works-in-progress*
- p.3 **Seongkook Heo**, Dongwook Lee, and Minsoo Hahn.
FloatingPad: A Touchpad based 3D Input Device, *ICAT '08 Poster*
- p.2 Seungwoo Lee, **Seongkook Heo**, Youmin Kim, Youngjae Kim, Soojin Lee, and Minsoo Hahn.
An Interactive Knocking Floor, *UbiComp 2008 Poster*
- p.1 Seungsoon Park, Seungwoo Lee, **Seongkook Heo**, Kyoungsin Park, and Minsoo Hahn.
Escape!: An Indoor Location-based Horror Game using Indirect Ambient Cues, *UCS 2007 Poster*

Patents

- P.22 Method and apparatus of playing haptic feedback for shear movement, KR Patent Pending, Application #2014-0026719, 3/6/2014
- P.21 Touch screen controlling method in mobile device, and mobile device thereof, KR Patent #1496017, 2/16/2015
- P.20 Method and apparatus for one-handed application of multi-touch gesture using continuous touch, KR Patent Pending, Application #2013-0083986, 7/17/2013
- P.19 Optical touchpad apparatus with proximity and force sensing capabilities and method of sensing touch in apparatus, KR Patent #1449833, 10/2/2014
- P.18 User interface method and apparatus using successive touches, US Patent Pending, Application #US20150026619, 1/22/2015
- P.17 Device and method of video playback control using force and contact position information, KR Patent #1393261, 4/30/2014

- P.16 Device and method for identifying multi-touch points using internal scattering, PCT/KR2012/006624, 8/21/2012
- P.15 Method and system for body tracking for spatial gesture recognition, PCT/KR2012/006372, 8/10/2012
- P.14 Apparatus and method for multi-touch sensing using total internal reflection, KR Patent #1356835, 1/22/2014
- P.13 Method and system for body tracking for spatial gesture recognition, KR Patent #1256046, 4/12/2013
- P.12 System and method for estimating position and direction, EU Patent #EP2385390, 21/8/2013, China Patent #CN102279380, 21/10/2015 US Patent Pending, Application #US20110261270, 4/18/2011
- P.11 Method for controlling touch screen in portable device, and portable device of the same, KR Patent #1177650, 8/21/2012
- P.10 Apparatus and method for sensing a moving object and a virtual golf simulation device using the same capable of accurately implementing the center point coordinate about an extracted object, KR Patent #1019801, 2/25/2011
- P.9 Apparatus and method for sensing a moving object and a virtual golf simulation device using the same capable of obtaining a multiple exposure image about a moving object, KR Patent #1019823, 2/25/2011
- P.8 Apparatus and method for sensing a moving object and a virtual golf simulation device using the same capable of accurately extracting an image of an object, KR Patent #1019798, 2/25/2011
- P.7 Apparatus and method for sensing a moving object and a virtual golf simulation device using the same capable of exactly extracting the center point coordinate of a moving object using a low speed camera, KR Patent #1019824, 2/25/2011
- P.6 Apparatus and method for sensing a moving ball and a virtual golf simulation device using the same capable of obtaining the center point coordinate about an image of a ball, KR Patent #1019829, 2/25/2011
- P.5 Sensing processing device for a moving object and a method thereof, and a virtual golf simulation device using the same capable of accurately extracting center point coordinate of an overlapped object, KR Patent #1019782, 2/25/2011
- P.4 Apparatus and method for sensing a moving ball and a virtual golf simulation device using the same capable of obtaining an image of a moving ball, KR Patent #1019847, 2/25/2011
- P.3 Device and method for sensing processing of a moving object, and a virtual golf simulation device using the same capable of achieving accuracy of sensing, KR Patent #1019902, 2/25/2011
- P.2 Method for controlling touch screen on portable device using built-in accelerometer, and portable device of the same, KR Patent #1173400, 8/6/2011
- P.1 Apparatus for sensing if a driver drives a car safely, KR Patent #1054062, 7/28/2011

Media and Press Coverage

- Microsoft's hover gestures for Windows phones are magnificent, *The Verge*, May 2016

Technical Skills

Hardware	Designing and building digital circuits with micro-controller Designing printed circuit boards using EagleCAD Basic analog circuit design and soldering
Software	Windows application development (using C#, WPF, C, Java, Processing) Mobile application development (for iOS, Android, Windows Phone) Computer vision using OpenCV Basic machine learning
Fabrication	2D modeling using Adobe Illustrator and laser cutting 3D modeling using Autodesk Inventor or Autodesk Fusion 360 and 3D printing Silicone molding
